EDUCATION

Brown University, *B.S. Computer Engineering*, 3.6/4.0 GPA Providence, RI | May 2025
Relevant Courses: Applied ODEs, Neuroengineering, Embedded Microprocessor Design, Visualizing Information, Interaction Design, Design of Computing Systems
Lab Skills: Verilog, FPGA implementation, embedded microprocessor system design, circuit design, PCB layout
Brown University Varsity Basketball Team NCAA Division 1 | Academic All Ivy 2024-2025

EXPERIENCE

Nou Basquet Femeni Castello, *Professional Athlete* Castello, Spain | Sept 2025– April 2026

- Balanced a professional basketball schedule with personal training, film review, and recovery while competing in Spain's professional women's league
- Coached 12 youth players during 3 training sessions a week, providing guidance on skill development and teamwork
- Collaborated with international teammates and coaching staff to execute game strategies and in-season performance improvements

Lane Engineering Consulting, *Associate Engineer* New York, NY | June 2023– Current

- Performed architectural and structural engineering inspections relating to historic preservation of buildings in New York City
- Surveyed buildings and created custom floor plans using BricsCAD
- Prepared Facade Inspection and Safety Program (FISP) reports in compliance with the NYC Department of Buildings Codes

Brown University, *Academic Advisor* Providence, RI | Sept 2024– May 2025

- Held weekly drop-in advising hours for first-year students, providing guidance on course selection, academic planning, and university resources
- Monitored the academic progress of over 60 students and ensured they maintained compliance with university academic requirements and deadlines, identifying those at risk academically and proactively reaching out to provide support

Brown University School of Engineering, *Teaching Assistant* Providence, RI | Sept 2023– Dec 2023

- Graded weekly assignments for introductory engineering course
- Held office hours assisting students with statics, materials science, heat transfer, and engineering design practices

WNBA New York Liberty Game Night Public Relations Team, *Stat Runner* Brooklyn, NY | June 2023– August 2023

- Verified media credentials, coordinated press seating for game coverage, and oversaw 25+ reporters during the game
- Assisted post-game interviews by distributing statistics and facilitating questions from 20+ reporters

TECHNICAL PROJECTS

Web Design Sept 2024– May 2025

- Designed and improved websites with a focus on user interface and user experience accessibility
- <https://gaiello1.github.io/gianna-aiello-portfolio/>

Soil Sense-Environmental Monitoring System Sept 2024– May 2025

- Designed and tested a microprocessor-based system using STM-32 and sensors to collect, log, and analyze environmental data (temperature, humidity, light)

Single-Cycle RISC-V Processor FPGA, Verilog Sept 2024– Dec 2024

- Designed and implemented a single-cycle RISC-V processor on FPGA, supporting arithmetic, logical, memory, and control instructions
- Created comprehensive documentation including assembly code, machine code, memory outputs, and timing reports

LEADERSHIP

Team IMPACT, *Fellow* Providence, RI | May 2022– May 2025

- Supported a nonprofit organization that integrates children with serious illness or disabilities into college athletic teams
- Coordinated fundraising initiatives and awareness events including a campus 5K charity run to increase Team IMPACT's presence on campus

Student Athlete Advisory Committee of Brown, *Secretary* Providence, RI | Sept 2022– May 2024

- Organized meeting schedules and prepared agendas for committee leadership
- Facilitated communication between student-athletes and athletic administration

Courts for Kids, *Volunteer* El Potrero, Panama | May 2023– June 2023

- Helped build a basketball court in an underserved community to provide an additional space for community events
- Supported local youth through organized sports activities and cultural exchange

SKILLS

Programming: Python, Java, JavaScript, TypeScript, Verilog, MATLAB, Pyret
Tools: BricsCAD, Microsoft Excel, PowerPoint, Google Workspace
Hardware: FPGA implementation, embedded microprocessor systems, circuit design
